## Bikram Bakshi Presents Dashboards as an Effective Tool for HIPAA Security and Privacy Compliance at the Nineteenth National HIPAA Summit

**Columbia, MD** — Bikram Bakshi, President and Chief Executive Officer of QSSI, was a presenter at the Nineteenth National HIPAA Summit from March 9<sup>th</sup> to the 11<sup>th</sup> in Washington, DC at the Wardman Park Hotel. The National HIPAA Summit is a leading forum on healthcare privacy and security based on the Health Information Technology for Economic and Clinical Health Act (HITECH ACT) and Health Reform.

Mr. Bakshi's speech primarily addressed the use of Dashboards as an effective and efficient tool for HIPAA Security and Privacy Compliance. To listen to Mr. Bakshi's presentation [click here](#).

The HIPAA Summit Conference Series has been designed and produced by Health Care Conference Administrators, L.L.C (HCCA). HCCA seeks to illuminate complex issues of health care practice and policy by bringing together the cutting-edge doers and thinkers of the healthcare industry. Since 1998, HCCA has offered conferences and symposia sponsored by over 150 associations, organizations, and publications and are attended by approximately 10,000 registrants. ### About QSSI

HIPAA+™ is a software-based solution developed by QSSI, a leading Health IT firm with over \$6 billion in contracts with Federal, state and commercial healthcare clients. QSSI conducted HIPAA reviews of covered entities across the United States on behalf of Centers for Medicare and Medicaid Services (CMS) from 2007-2009. Several of QSSI's recommendations directly impacted the HIPAA enforcement rules under the HITECH Act of 2009.
