QSSI Wins US Department of Housing and Urban Development Integrated Real Estate Management System Contract

Columbia, MD — Maryland-based QSSI was awarded a contract from the U.S. Department of Housing and Urban Development (HUD) in partnership with ATS Corporation (ATSC) to support a new contract for the HUD Multifamily Housing Organization. Under this contract, ATSC will continue to provide application systems support for HUD's Integrated Real Estate Management System (iREMS). The ATSC team will perform project management tasks, provide corrective maintenance support for previously released application software, provide Development, Modernization and Enhancement (DME) support for evolving current business functionality, and ongoing training support.

The ATSC Team will continue to provide support for maintaining and enhancing iREMS to meet HUD's Multifamily Housing Program objectives. iREMS is a Multifamily Housing business application for maintaining tracking information for approximately 32,000 multifamily properties.

About ATS Corporation

ATSC is a leading provider of software and systems development, systems integration, infrastructure management and outsourcing, information sharing, training and consulting to the Department of Defense (DoD), Federal civilian agencies, public safety and national security customers, as well as commercial enterprises. Headquartered in McLean, Virginia, the company has more than 600 employees at 10 locations across the country.

About QSSI

Founded in 1997, QSSI is a rapidly growing firm with a broad set of Information Technology (IT) solution offerings. A SEI CMMI® Maturity Level 3 firm, QSSI focuses on enterprise software development, security and privacy services, and critical IT infrastructure solutions as core competencies. QSSI has successfully performed on over 200 Federal civilian contracts and has over 400 IT professionals. Additional information about QSSI may be found at www.qssinc.com.
