## QSSI's HIPAA+™ Offering Helps Healthcare Organizations Comply with HITECH Act Changes to HIPAA

**Columbia, MD** — Maryland based QSSI announces the launch of HIPAA+™, a software-based solution which manages compliance with industry and Federal regulations like the Health Insurance Portability and Accountability Act (HIPAA). HIPAA+™ provides a comprehensive assessment, implementation, training, and compliance monitoring approach across all aspects of HIPAA. Targeting privacy, security, transactions and code sets, HIPAA+™ is an effectual solution for healthcare organizations and their business associates that process, store or otherwise handle Protected Health Information (PHI) data. HIPAA+™ is especially relevant in light of the HITECH Act, which requires covered entities and their business associates to notify the affected individuals and the Department of Health and Human Services (HHS) in the event of a breach of "unsecured protected health information".

QSSI will be exhibiting the HIPAA+™ solution at the Healthcare Information and Management Systems Society (HIMSS) Conference (Booth #6243) at the Orange County Convention Center in Orlando, Florida on February 20-24, 2011.

### About QSSI

HIPAA+™ is a software-based solution developed by QSSI, a leading Health IT firm with over \$6 billion in contracts with Federal, state and commercial healthcare clients. QSSI conducted HIPAA reviews of covered entities across the United States on behalf of Centers for Medicare and Medicaid Services (CMS) from 2007-2009. Several of QSSI's recommendations directly impacted the HIPAA enforcement rules under the HITECH Act of 2009. For more information about HIPAA+™, please visit [www.hipaa-plus.com](http://www.hipaa-plus.com).

### About HIMSS

The Healthcare Information and Management Systems Society (HIMSS) is the healthcare industry's membership organization exclusively focused on providing global leadership for the optimal use of healthcare information technology (IT) and management systems for the betterment of healthcare. Founded in 1961 with offices in Chicago, Washington D.C., Brussels, Singapore, and other locations across the United States and the globe, HIMSS represents more than 20,000 individual members and over 350 corporate members that collectively represent organizations employing millions of people. HIMSS frames and leads healthcare public policy and industry practices through its advocacy, educational and professional development initiatives designed to promote information and management systems' contributions to ensuring quality patient care. For more information about HIMSS, please visit <http://www.himssconference.org>.
