QSSI Announces the Appointment of Karlton L. Kim, PMP® as Vice President of Program Delivery

Columbia, MD — Maryland-based QSSI announces the appointment of Karlton L. Kim, PMP®, as Vice President of Program Delivery. Mr. Kim brings a proven track record of successfully managing large complex programs for the public sector and will be responsible for overseeing our Centers for Medicare & Medicaid Services (CMS) accounts.

Previously with CSC, Mr. Kim spent the last 15 years managing projects at CMS and brings with him extensive knowledge of both Medicare and Medicaid systems. Mr. Kim oversaw the deployment and operation of the underlying system supporting the Medicare Prescription Drug benefit (MARx) program and led the development of a service oriented architecture model that has sparked the interest of state governments, federal agencies, foundations and vendors.

“Karlton brings a wealth of experience to QSSI both as a CMS subject matter expert and a leader,” said Senior Vice President of Program Delivery, Michael Finkel. “His expertise and depth of industry and customer knowledge will further strengthen our team.”

About QSSI

Founded in 1997, QSSI is a rapidly growing firm with a broad set of Information Technology solution offerings. A SEI CMMI® Maturity Level 3 firm, QSSI focuses on health IT, enterprise software development, security and privacy services, and critical IT infrastructure solutions as core competencies.
