QSSI to Exhibit at the FAA National Small Business Procurement Opportunities Training Conference and Trade Show

Columbia, MD — Maryland based QSSI announced that it will be exhibiting at the FAA National Small Business Procurement Opportunities Training Conference and Trade Show (Booth # 406) at the Taj Mahal Conference Center in Atlantic City, NJ, on July 20, 2011.

The training conference and trade show provides a forum for small businesses (including service-disabled and veteran-owned small business and 8(a) certified firms) to participate in technical and procurement opportunities workshops. Sessions will link small businesses with large business and program managers, address business issues and concerns, and provide information that will benefit small businesses seeking to do business with the agency. For more information on the FAA National Small Business Procurement Opportunities Training Conference and Trade Show, please visit: http://www.faa.gov/news/conferences_events/small_business_forum_2011/

At this conference, QSSI will highlight QVerify™, a web-based Personal Identity Verification (PIV) solution designed to support identity credentialing, access management, and complex identification (ID) badge production requirements.

QSSI specializes in delivering solutions in security and privacy services, software engineering, software testing and release management, managed business solutions, and Health IT. As an Electronic FAA Accelerated and Simplified Tasks (eFast) MOA Holder, our goal is to provide professional services to the FAA in the following areas: Business Administration Management, Computer System Development, Computer System Support, and Documentation and Training. Please visit the QSSI booth (#406) at FAA National Small Business Procurement Opportunities Training Conference and Trade Show to learn more.

About QSSI

Founded in 1997, QSSI is an established CMMI® Level 3 organization with a proven track record delivering a broad range of solutions with particular expertise in Security & Privacy, Software Engineering, and Health IT. We are GSA approved for SIN 132-62, HSPD-12 System Integration Services and maintain a Top Secret Facility Clearance. Bringing together more than 400 of the most talented personnel in the industry, QSSI collaborates with both the public sector and private sector to maximize performance and create sustainable value for our customers. Additional information about QSSI may be found at www.qssinc.com.
